

## Call for applications: Network Research Visits 2025

The Zukunftscolleg of the University of Konstanz, Germany, provides funding for up to  
**5 x short Research Visits for Early Career Researchers**  
lasting one to three months and based at the Zukunftscolleg Konstanz.

### Aim

Research Visits at the Zukunftscolleg support **temporary research stays 4 -12 weeks** by international early career researchers who are currently fellows at one of the partner Institutes for Advanced Studies, e.g. within UBIAS or NetIAS. The aim of the Research Visits is to provide an opportunity to engage in a research project at the University of Konstanz, ideally in collaboration with a Zukunftscolleg fellow. No limitation is placed on the area of research within the humanities, natural and social sciences. Interdepartmental and interdisciplinary research is encouraged.

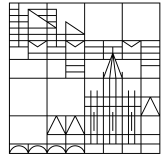

Visiting researchers receive a shared working space in the Zukunftscolleg with all the usual research facilities and are expected to participate in all Zukunftscolleg's activities. Experimental projects in the natural sciences can only be supported if arrangements for lab space are made with the respective departments, since the Zukunftscolleg does not have any laboratory space of its own.

### Benefits for visiting researchers

- Access to events organised by the Zukunftscolleg during the on-site visit;
- The opportunity to present your research work to an interdisciplinary community at the Zukunftscolleg's weekly Jour fixe;
- Interaction with a lively international community of peers and support with contacting other researchers in your area of research;
- Access to library resources and IT services;
- Shared work space at the Zukunftscolleg.
- Finances: Travel expenses (economy class flights for overseas, preferably train/bus within Europe), up to 800€ per month for accommodation in Konstanz, living allowance of 400€ per month (no employment contract), family support provided depending on individual need and availability

### Obligations for visiting researchers

- Reside in Konstanz or nearby throughout the Research Visit (the Welcome Centre of the University of Konstanz will gladly provide support with all organisational aspects of relocating to Konstanz);
- Contribute actively to interdisciplinary dialogue at the Zukunftscolleg, e.g. during the weekly Jour fixe meetings;
- Engage with fellows and researchers in relevant departments at the University of Konstanz;
- Acknowledge Zukunftscolleg support in any publications resulting from the stay;
- A short report on your activities and achievements (within 6 months of completing your Research Visit).

### Eligibility

- Applicants for Research Visits are affiliated with one of the [ZUKO's international cooperation partners](#) or are members of the [European NetIAS](#) or the [worldwide UBIAS network](#) (outside Germany).
- They hold a doctorate or equivalent professional qualification. Consideration will be given to the academic record and the publications of all applicants as well as their interest to disseminate their views among an interdisciplinary community.
- Candidates should provide evidence of any contact they have had with researchers at the Zukunftscolleg or at the University of Konstanz, and of the proposed collaboration during and beyond their stay at the Zukunftscolleg. Applicants who have initiated such contact before requesting funding will have a competitive advantage. Preference may be given to applicants who plan to collaborate with current fellows of the Zukunftscolleg.

### Application

Please submit your application documents in English as a single PDF file

[zukunftscolleg-international@uni-konstanz.de](mailto:zukunftscolleg-international@uni-konstanz.de)

Applications should include the following materials:

- A **letter of motivation** including a brief description of the project's collaborative objectives. The description should be written for an interdisciplinary decision-making committee (max. 2 pages);
- A **research project description** (maximum 5 pages including references);
- **Timeline** for the proposed activities starting in 2025. A central aim of the research visit is to create networks with fellows and other researchers at the university, thus the majority of your research stay should fall within the lecture period (mid-April to mid-July, mid-October to mid-February, break for Christmas/ New Year);
- **CV** (including the current status at an Institute for Advanced Studies)
- a copy of your **doctoral certificate** (within max. six years of the award)
- A short **letter of support** from a fellow at the Zukunftscolleg or a researcher employed at the University of Konstanz;

Deadline: January 15, 2025
